- Differential and Integral Calculus
- Sequences, Series, and Multivariable Calculus
- Matrices and Matrix Calculations
- Probability

WORK EXPERIENCE

- GIS Data Analyst at CSS Corp for Apple Maps April 2021-September 2021
- GIS Quality Analyst at CSS Corp for Apple Maps September 2021-present
- Promoted within 6 months due to work ethic, and exceeding productivity and quality standards set by the client at Apple
- Day to day: Use Apple Maps proprietary software to make sure that all updates to the map are correct and if any missed, or incorrect changes were made. The original role I was hired for was to be the editor that made the changes, but after a high productivity rate, accuracy score, and recommendation from managers I was promoted to the Quality Control Team to oversee the changes that are made, and make sure they are correct.
